EDUCATION

Bachelor of Science in Information Technology

Computer Communication Development Institute (CCDI)

TECHNICAL SKILLS

Languages & Frameworks

Java, JavaScript, Python, PHP, TypeScript, React.js, React Native, Next.js, Node.js

Databases & Cloud

MySQL, MongoDB, PostgreSQL, AWS (EC2, S3), Firebase, Vercel

Tools & Platforms

Git/GitHub, Docker, Figma, WordPress, Android Studio, VS Code

CERTIFICATIONS

- Cyber Threat Management** - Cisco (2024)
- Introduction to Cybersecurity** - Cisco (2024)

LANGUAGES

- English:** Intermediate (Working Proficiency)
- Filipino:** Native Speaker
- Bicolano:** Native Speaker

KEY PROJECTS

A&A Mini Mart Online Ordering

React.js • Node.js • MongoDB • Google Maps API

Online ordering system with COD payment and delivery tracking. [Live Demo](#)

KonektCons Marketplace

React Native • AWS • Firebase • MySQL

Cross-platform app connecting skilled workers with clients. [Figma Design](#)

Sorsogon Treasures Tourism

Java • Android Studio • Google Maps API

Native Android tourism app with GPS and offline capabilities. [Video Demo](#)

PROFESSIONAL EXPERIENCE

Mobile Application Developer

KonektCons - On-Demand Marketplace (Team Project with Real Client)

August 14, 2025 - December 15, 2025

- Developed cross-platform marketplace app using **React Native**, **Node.js**, and **Spring Boot**
- Built admin dashboard with **CodeIgniter** and **React**, integrated **Firebase** for real-time messaging
- Deployed on **AWS** infrastructure (**EC2**, **S3**, **CloudFront**) with **MySQL** database

Full-Stack Developer & Lead

Online Ordering Management Application for A&A Mini Mart (Capstone Project)

June - December 2025

- Built grocery ordering platform using **React.js** and **Node.js** with **Google Maps** integration
- Implemented COD payment system and seller dashboard for inventory management
- Developed responsive interface for seamless cross-device experience

Research Developer

Barangay Profiling System - Research Project (3rd Year Research Subject)

February 2, 2025 - May 15, 2025

- Built comprehensive Barangay Management System using **PHP**, **MySQL**, **Bootstrap**
- Applied research methodologies for local government data management requirements

WordPress Developer & Web Designer

School Projects - CCDI Web Development Course

Jun 2025 - Dec 2025

- Developed multiple **WordPress** websites with custom themes using **PHP**, **MySQL**
- Configured local development environment with **XAMPP** for testing and deployment

Android Application Developer

Sorsogon Treasures - School Project (Tourism App)

2023 - 2024

- Developed native Android tourism app using **Java**, **Firebase**, and **Google Maps API**
- Implemented multilingual interface and offline data caching with **SQLite**

Full-Stack Web Developer & Content Creator

Personal Portfolio Website - Interactive 3D Portfolio & Blog Platform

June 4 2024

- Built interactive 3D portfolio using **Next.js**, **Three.js**, and **Tailwind CSS**
- Developed dynamic blog system with 15+ technical articles, achieving 2000+ monthly views

PROFESSIONAL OBJECTIVE

Passionate IT student with 4+ years of full-stack and mobile development experience. Seeking to leverage expertise in React, React Native, Node.js, and cloud technologies in a dynamic software development role.
